It is set on over 1.5 acres which in a former time was a prize winning garden. It has separate landscaped terraces, and paved path ways. Many shrubs and trees remain after selective clearing the gardens could be brought back to life.

It is connected to town water and also has a bore which provides sufficient water for an automatic watering system to cover the garden. An extra bonus is the two bay 6m x 13m steel shed.

Opportunity abounds for the right person. Possibilities
